Wow I scored 98/100! I have good news to tell my mom!

I scored 98/100 at the math test mom!

Oh darling! These are great news! Go get some rest.

Hey babe! I have to announce some great news when you return home!

Our son scored 98/100! Let's go out and have some fun!

Oh darling! Great news!

I have some math problems to solve, an essay to write and some literature. Too easy for me!

I have so much to do...
The deadline is due tomorrow and i haven't done anything yet...

How is dad? I'm so worried about him.

And these online classes are killing me... I'm 16 and my whole life is based in a room.

uuuhhhh

I really miss him and my son is falling apart.

Son,
I have
something to say.
It's about my
work.

My salary is getting way
too low. Things are
getting out of hand and
we can not provide more
than our basic needs...

The budget is also
too low to continue
affording your dad's
clinic for COVID-19
treatment.

There is no courage
left. I'm only 16, how
am I supposed to
handle all these
problems?

2 months later ...

50 years after . . .

And that's why my grandson I insist on saying that life goes on and we must stay positive!

My grandfather has been through a lot! Especially during the COVID-19 pandemic.

#2 The Second Industrial Revolution

By a Special Needed Student

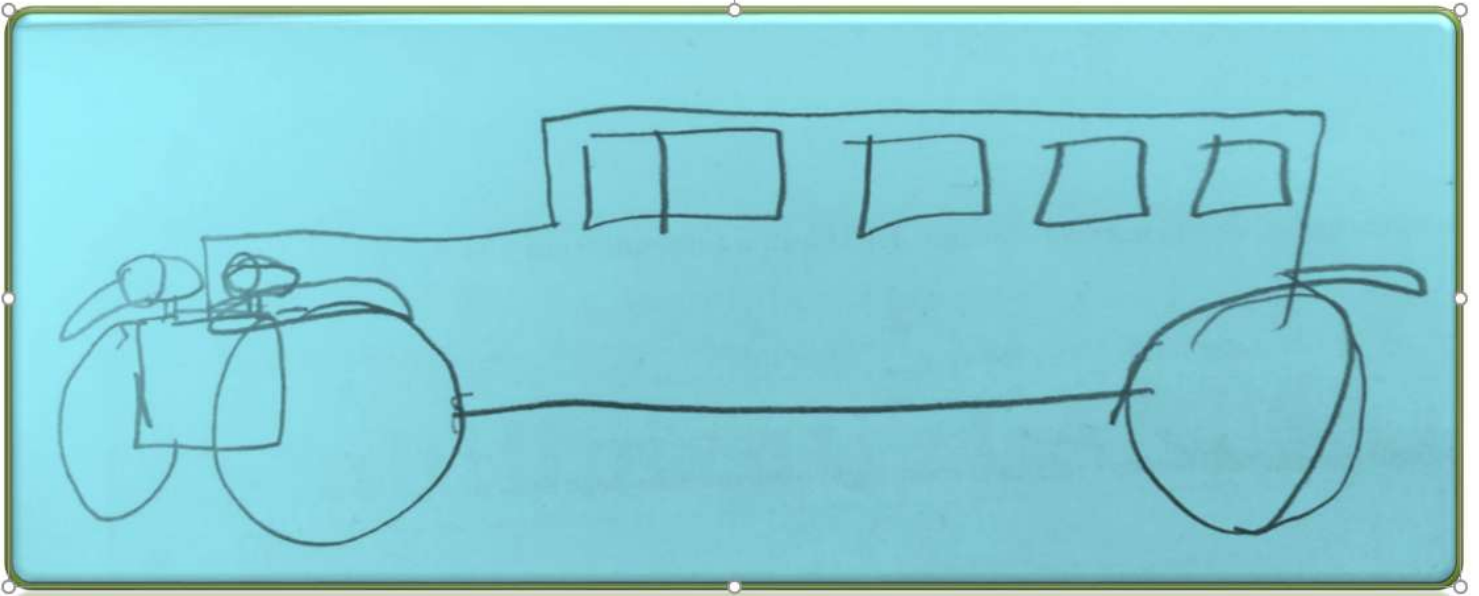

I'm KARL BENZ, a German engineer and this is my invention, the gas-powered Benz Motorcar

Do you know that more than a century ago one of the most glorious and successful Italian automobile brands was born?

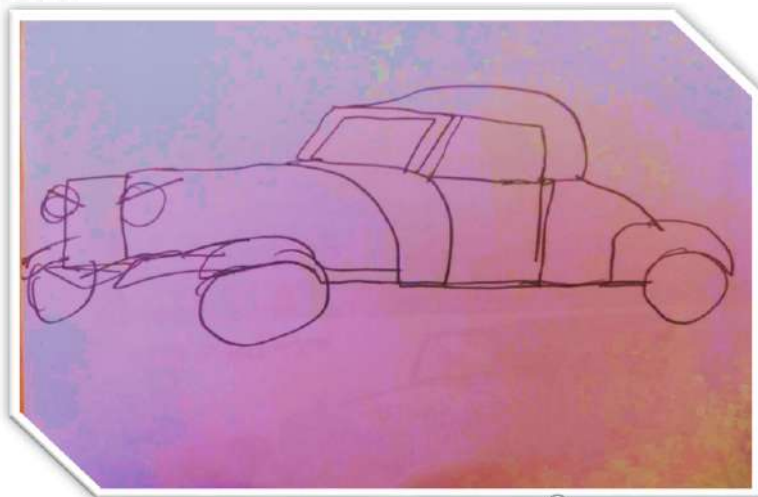

Yessss
Fiat

Look at this
prototype

Wowww
it's a sports
car!

It was during the Second Industrial Revolution from the late 1800s to the early 1900s. New technology and inventions led to changes in the economy and how people lived and worked in Europe, Great Britain and especially the United States.

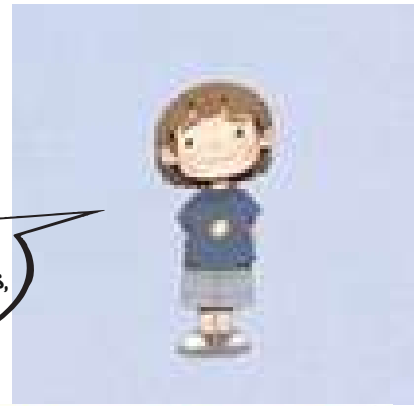

Interesting!

It was the great period of TAYLORISM with increase of productivity, reduced cost of production, reduced waste and

Yes but there were also some disadvantages: Focus on individual performance, on repetitive jobs, reduction of creativity, monotony and alienation

I know. I saw the film MODERN TIMES by Charlie Chaplin where he criticizes the capitalist

In the 1764 in North America there were 13 british colonies. King George III needed money, so the Parliament decided to create new taxes for the colonies....

Meanwhile in England...

For these reasons The Sons of Liberty, the 16 December 1773 decided to attack an entire shipment of tea in Boston

After that the British Parliament imposed punitive laws, called "The intolerable Acts" by the colonies, so in September 1774...

And a year later there were a Second Congress...

Meanwhile in Britain...

Many years passed by. The war started in the 1775 and finished in the 1783. The main victories where in Saratoga and in Yorktown. Of course for the colonies. In the 1783 U.K. accepted the U. S. independence. They signed the Treaty of Paris. It is called THE AMERICAN REVOLUTION WAR.
